Chromebooks - everyone has one, but when they break, you have to send them out for repair, we don't have tons of extra (just some) BUT - 6th graders across CMS are getting new chromebooks next month
Staffing updates:
7th grade ELA teacher is leaving - students were broken out among the other classes, totals are 35 students now
Rumor that a 7th grade Math 2 teacher is leaving. Schroeder has not heard that, she will look into it
A NCVPS class facilitator - is getting frustrated w/ behavior in class, considering leaving. Another facilitator out on medical leave
NCVPS - going well, online tutoring is available, the material is there online regardless of teacher; thus far communication has been good between facilitators and parents; FYI this will conclude in middle of May so we will need figure out what happens then
Teachers are not allowed to direct traffic, CMS resource officers are not required to do it, the job is open to police officers and the funds are there but there has to be someone who wants to do it
